| Farming | ⁶ | X | X | | Not Applicable | | |
| Administrative costs | ⁷ | X | X | X | X | X | X |
| Monitoring costs | ⁸ | | | | X | X | X |

¹ Operating costs depend on facility design and security classification. Economies of scale for facility depend on the number of inmates housed.

² Consideration should be given to the level of medical care to be provided and whether the burden of responsibility for extended medical care transfers to the State.

³ MDOC uses licensed teachers for their adult basic education and vocational education programs. Consideration should be given if non-certified teachers will be used.

⁴ Costs associated with records, inmate classification, and offender services are provided by the State. Identified direct costs of these functions total \$4,042,872 for year ended June 30, 2004. Inmate days supported by these functions were 6,726,158, representing a daily cost of 60¢.

⁵ The costs associated with services provided by the State should not be considered as a part of the contracted rate with a private facility.

⁶ Private facilities do not have farming operations.

⁷ Private facilities have fewer administrative responsibilities than the responsibilities of the State.

⁸ Private facilities reimburse MDOC for monitoring costs.
